

SHADOWCAST

A PRODUCT BY VES

Situational Awareness at Eye Level

Extend Nett Warrior from your vest. Shadowcast puts it on the dash.

Mirror Nett Warrior from your phone onto a 10" rugged display mounted on the dash of your ISV, instantly increasing situational awareness and mission effectiveness.

Mount Up. Plug In. Move Out.

Deliver mounted C2 without modifying vehicles or expanding C5ISR systems.

One Mission. One View.

Extend your device to the vehicle display so commanders and drivers operate from the same real-time mission picture.

CarPlay Simplicity for Tactical Vehicles

Give squads instant, plug-and-play access to C2 apps on a larger touchscreen. No integration required and no delays.
